

The next technology is here today.

SHARK ADV

Internal Filter

Three models for different powers equipped with a venturi system with a sophisticated suction to improve oxygenation. A modular system with the possibility of adding one or more filtering compartments to increase the filtration capacity or to carry out specific water treatments. Patented quick uncoupling system (MCS Magnetic System) which guarantees fast and easy maintenance and a perfect seal of the filtering bodies with the pump.

- 3 year warranty
- Revolving pump head for correct direction water flow
- Transparent mechanical filter body for easier control
- Variable flow
